

## ACTION PLAN 2026-27

### KVK, SUNDARGARH -II

| Discipline               | Title                                                                                                                     | Code               | FLD/OFT |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------|--------------------|---------|
| <b>Horticulture</b>      | Assessment of off-season Tomato during summer season                                                                      | 24OHO01 (S)*       | OFT     |
|                          | Assessment on INM practices in Banana                                                                                     | 24OSS08 (K)        | OFT     |
|                          | Demonstration on Natural Farming Technology for Tomato <b>(1<sup>st</sup> year)</b>                                       | 24FHO01(R)*        | FLD     |
|                          | Demonstration on Integrated Nutrient management in Litchi                                                                 | 25FHO09 (K/R)      | FLD     |
|                          | Demonstration of Garlic variety-Yamuna Safed-3                                                                            | 26FHO08 (K/R)      | FLD     |
|                          | Demonstration on crop management in Apple Ber                                                                             | 25FHO08 (K/R)<br>* | FLD     |
| <b>Home Science</b>      | Assessment on value added products of millets (Millet Bar) for income generation                                          | 25OHS02 (K/R)      | OFT     |
|                          | Assessment of value-added products from blended Ragi & Green gram                                                         | 23OHS09(K/R)       | OFT     |
|                          | Demonstration on comb honey production technology in Asian bees for income generation                                     | 24FHS02(K/R)       | FLD     |
|                          | Demonstration on value addition of Papaya (Tutti-frutti)                                                                  | 23 FHS02(R)        | FLD     |
|                          | Demonstration on value addition of Oyster mushroom by preparing soup mix                                                  | 25FHS07(R)         | FLD     |
|                          | Demonstration on the preparation of Moringa leaf powder for increasing Shelf-life & Income                                | 24FHS17(K/R)       | FLD     |
| <b>Ag Extension</b>      | Assessment of effective channels for dissemination of detailed information on entrepreneurship development schemes (MKUY) | 25OEE04(Y)         | OFT     |
|                          | Demonstration of short technical video for dissemination of climate resilient agriculture                                 | 25FEE03(Y)         | FLD     |
|                          | KVK organized training programmes of different durations                                                                  | IMPACT STUDY       |         |
| <b>TSP Demonstration</b> | Demonstration of Maize Variety Kalinga Raj                                                                                |                    |         |
|                          | Demonstration of nutritional garden for Improving Nutritional Security of farm families                                   |                    |         |
|                          | Demonstration of Mushroom round the year                                                                                  |                    |         |
|                          | Demonstration of Backyard Poultry                                                                                         |                    |         |
|                          | Demonstration of Garden pea variety- KSP-110                                                                              |                    |         |
|                          | Demonstration of Strawberry variety- Winter dawn                                                                          |                    |         |

## TRAINING PROGRAMMES
